

List of functions activated by Recip-e in production (before roll-out by the software)

Principles

- Mandates only in 2021
- 1 item only in 2021
- Complete dematerialisation only in 2021 (digital access)

Functions already present in V2: set in thick → **old V2 functions**

Probably the complete V4 functions and the dematerialisation will be set in 1 date (complete dematerialisation).
