

Recip-e	Version 25/02/2022
---------	-----------------------

## Change overview of package for software houses

### 25/02/2022 – updates:

- Added documentation for **reservation contact information**
  - Recip-e\_general\_dematerialisation\_specifications\_v20220224.pdf
  - Executor\_Documentation\_SDK\_API\_v20211129.docx
  - Executor\_Documentation\_eHealth\_API\_v20211129.docx
  - Executor\_Documentation\_Server\_API\_v20211129.docx
  - Patient\_Documentation\_eHealth\_API\_v20211018.pdf
  - Patient\_Documentation\_Server\_API\_v20211018.pdf
  - recipe-core.xsd
- Added documentation and specifications for the **“Break the glass”** procedure
  - Recip-e\_general\_dematerialisation\_specifications\_v20220224.pdf
  - CHANGELOG\_executor.txt
  - UnsealedExecutorServicesV4\_schema1.xsd
  - Executor\_Documentation\_SDK\_API\_v20211129.docx
  - Executor\_Documentation\_eHealth\_API\_v20211129.docx
  - Executor\_Documentation\_Server\_API\_v20211129.docx
  - Recip-e\_ERRORS\_EN\_20211223.pdf
  - Recip-e\_ERRORS\_NL\_20211223.pdf
  - Recip-e\_ERRORS\_FR\_20211223.pdf
- **Caching** of therapeutic Releations
  - Recip-e\_general\_dematerialisation\_specifications\_v20220224.pdf
- **German** translation of PeP
  - Recip-e\_general\_dematerialisation\_specifications\_v20220224.pdf
  - NEV new 15092021.pdf

### 30/09/2021 – updates:

- Added documentation and specifications for the contact information during prescription reservation
  - Executor\_Documentation\_eHealth\_API\_v20210930.docx
  - Executor\_Documentation\_SDK\_API\_v20210930.docx
  - Executor\_Documentation\_Server\_API\_v20210930.docx
  - Patient\_Documentation\_eHealth\_API\_v20210930.docx
  - Patient\_Documentation\_Server\_API\_v20210930.docx
  - recipe-core.xsd
  - UnsealedExecutorServicesV4\_schema1.xsd
  - UnsealedPatientServicesV4\_schema1.xsd

### 26/08/2021 – updates:

- Added documentation and specifications for the new “Proof of Electronic Prescription” template
  - 20210806 BS REGLEMENT elektronisch voorschrift en BEV update\_in voege 15092021.pdf
  - Instructions techniques PPE final.pdf
  - Technische instructies BEV final.pdf

Recip-e	Version 25/02/2022
---------	-----------------------

- BEV new 15092021.pdf
- PPE new 15092021.pdf

#### 21/05/2021 – updates:

- Updated document “Recip-e dematerialization specifications\_20210416” to “Recip-e general dematerialization specifications\_20210506.pdf”
  - Re-added Patient section (updated version for phase 2)
- Updated suggested error messages in annexed patient platform decision tree

#### 20/04/2021 – updates

- Updated document “Recip-e dematerialization specifications\_20210416.pdf”
  - CreatePrescriptions
  - PrepareCreatePrescriptions
- Updated document Prescriber\_Documentation\_SDK\_API\_v20210416.docx
  - Add operation createPrescriptions
  - Add operation prepareCeatePrescription
- Updated document CHANGELOG\_prescriber.txt

#### 23/03/2021 – updates

- Updated document “Recip-e dematerialization specifications\_20210315.pdf”
  - Restructured document.
  - Aligned with dematerialization phase 2
  - Document Recip-e production-guidelines-2019-2020\_20190926.pdf integrated
- Recip-e production-guidelines-2019-2020\_20190926.pdf becomes obsolete
- Updated document “Recip-e\_Integration\_Specs\_Hospitals\_v1.0.8-KMEHR-1.28-20210315.pdf”
  - Aligned with dematerialization phase 2
- Added document “Recip-e 1-item list information\_20210323.pdf”
- Added document “Recip-e SoftwareHouse Events.pdf”
- Updated document “Recip-e Software vendor identification\_20210315.pdf”
  - Added instructions for patient platform
  - Added instructions for additional connectors
  - Clarification “where to specify the program id”
- Executor\_Documentation\_SDK\_API\_v20210315.docx
  - Add documentation on the use of property patient.insurability.disable and connector.version of the operation GetPrescriptionForExecutor
  - Add operation *DecryptListOpenPrescriptionsResult*
  - Add operation *DecryptListReservationsResult*
  - Add ‘page’ to ListRelationsParam
  - Update description of *getAndMarkAsDelivered*
- Release Executor SDK 1.8.4tris
  - Add deleteOnExit after createTempFile in SessionUtil.java
  - Update tsacertificate.jks for prod
  - Remove default programIdentification from config
  - Remove persistentcache from kgss-keys
  - Add paging to reservation in the GUI
  - Remove markAsArchived from GetAndMarkAsDelivered
- Release Executor SDK 1.8.6
  - Add deleteOnExit after createTempFile in SessionUtil.java

Recip-e	Version 25/02/2022
---------	-----------------------

- Update tsacertificate.jks for prod
- Remove default programIdentification from config
- Remove persistentcache from kgss-keys
- Add paging to reservation in the GUI
- Remove markAsArchived from GetAndMarkAsDelivered

### 03/12/2020 – updates

- Homologation document renamed to “Homologation prescriber GP V4 phase2.pdf”
- Validation prescriber documents split for specialists (hospital and non-hospital)
- Validation executor documents split for hospital and public executors
- Update document on Recip-e\_testgenerator\_user-guide

### 01/12/2020 – updates

- Removed ‘mandateHolderId’ from ListRelationsParam in Patient API

### 26/11/2020 – updates

- New homologation document added for prescriber software
  - Homologatie V1.pdf
- New Validation document added for executor software
  - Validatie Executor V1.pdf
- Removed old test documents
  - Recip-e\_additional\_registration-tests-prescribers\_spring-2020--2019-09-09-part2.doc
  - Recip-e\_pharmacy-test-scenarios Phase 1\_2020\_20191219.pdf
  - Recip-e\_pharmacy-test-scenarios Phase 2\_2020\_20191127.pdf
- Add information on use of default namespace
  - Executor\_Documentation\_eHealth\_API\_v20201126.docx
  - Prescriber\_Documentation\_eHealth\_API\_v20201126.docx
  - Patient\_Documentation\_eHealth\_API\_v20201126.docx
  - Recip-e\_Integration\_Specs\_Hospitals\_v1.0.8-KMEHR-1.28-20201126.pdf

### 21/10/2020 – updates

- Add firstname and lastname for ListRelationsItem
- Ehealth connectors to version 3.20.2
- Remove APB-functionality (executors)
- API/XSDs for executors/patients in Recip-e\_tech\_docs\_API en tech specs\_20191021-Zsp
- Recip-e Errors EN/NL/FR
- Recip-e dematerialisation general documentation
- Release SDK 1.8.5 (Executors/Prescribers)

### 08/09/2020 – updates

- Release SDK 1.8.4
- Remove windows-com-dll support for V4
- Add new truststore.jks for acc/prod
- Update tsacertificate.jks for prod
- Remove default program identification

### 11/08/2020 – updates

- Software vendor identification V2

Recip-e	Version 25/02/2022
---------	-----------------------

- Update: Good Practices document
- Update: General dematerialization specification document

#### **14/07/2020 – updates**

- Software vendor identification
- Update: Best Practices document
- Update: General dematerialization specification document

#### **22/06/2020 – updates**

- Release SDK 1.8.3
- Doc Dematerialisation General

#### **09/06/2020 – updates**

- Good Practices – update

#### **21/04/2020 – updates**

- Errors document – update in NL and FR and ENG

#### **20/04/2020 – updates**

- Addition of new TSA certifie of production in the Executor & Prescriber SDK

#### **26/3/2020 – updates**

- Addition of a Best Practice document on how to use the application Recip-e by the softwarehouses.
- Overview of activation of functions V4 by Recip-e.

#### **26/3/2020**

- Addition of a Best Practice document on how to use the application Recip-e by the softwarehouses.
- Overview of activation of functions V4 by Recip-e.

#### **24/3/2020**

- Manual endpoint distributor update ADAPTED (dated 24/3/2020)
  - o Specifies extra that you should set the truststore-settings before you do the initiation of the technical eHealth connector.

#### **24/2/2020**

- Manual endpoint distributor update
  - o Instructions to make sure that the BCP in the e-health connector works correctly

Recip-e	Version 25/02/2022
---------	-----------------------

### **17/2/2020**

- Release SDK 1.8.2
- Change logs adapted

### **27/1/2020 – updates**

- Addition of the error codes in 3 languages
- For guidance SWH (see on the website: F2F exchange of 22/1/20)

### **21/1/2020 – updates**

- Addition of the migration document from 1.6 towards 1.7 (or higher)

### **20/1/2020 – updates**

- Addition of the RID generator guide

### **19/12/2019 - updates**

- Technical documentation ZIP file to clarify questions as discussed during the SWH digital exchange on 6/12/2019:
  - ExecutorAPI.ListOpenPrescriptions
  - ExecutorAPI.ListRelations
  - Delete the part for the PatientClient (as there is no SDK for the patient)
- Split up of the executor scenario's in 2 phases → 2 documents
  - existing document becomes phase 2;
  - new phase 1 document is added.
- SDK 1.8.1
  - Link to SDK 1.8.1 document: gives the link towards the section for the softwarehouses on the website Recip-e)
  - + release notes
